

Minnesota Transfer Curriculum (MnTC) Completion at HTC

Effective 2013-14 Academic Year

Minnesota State College and Universities (MnSCU) two and four-year public institutions developed a common liberal arts general education curriculum known as the Minnesota Transfer Curriculum (MnTC). Completion of a defined 40 credits enables a student to transfer lower-division general education coursework to any MnSCU institution. MnTC courses fall within ten areas of competency, called goals. Students who complete the MnTC are certified in the ten goal areas at the originating institution.
